## EXECUTIVE SUMMARY

---

Minnesota's Ethics in Government Act (Minnesota Statutes, chapter 10A) requires lobbyists to report disbursements for lobbying purposes to the Campaign Finance and Public Disclosure Board two times a year. This summary is based on reports for lobbying disbursements made from June, 2003, through May, 2004.

Lobbyists filed a total of 3,261 periodic reports for the twelve-month period. Disbursement reports were submitted on behalf of:

- 1,210 lobbyists;
- representing 1,220 associations and individuals; and
- reporting a total of \$11,936,711 spent on lobbying activities.

Lobbyists reported that 876 (72%) of the 1,220 associations and individuals represented made disbursements for lobbying purposes. The reports disclosed that of the total disbursements 87% were for legislative lobbying, 10% were for administrative lobbying, and 3% were to influence the official action of a metropolitan governmental unit. See page 5 for a comparison of total lobbying disbursements by type of lobbying reported in the last three reporting years and total lobbying expenditures reported by lobbyist principals for the last two calendar years.

Lobbyists must disclose honorariums, gifts, loans, items or benefits equal in value to \$5 or more given or paid to a public or local official from the lobbyist, the lobbyist's employer, or an employee of the lobbyist. Eighteen associations reported giving items or benefits totaling \$3,457 to 83 legislators, one constitutional officer, 13 local and public officials, three constitutional office employees, and one legislative employee. See page 17 for definitions. Lobbyists are not required to disclose their salaries or their political contributions.

Lobbyists for Caesars Entertainment reported the largest total disbursements during the period and the largest total disbursements for legislative action lobbying. Lobbyists for Qwest reported the largest disbursements for administrative action lobbying and lobbyists for Blue Cross/Blue Shield of Minn reported the largest disbursements in attempts to influence metropolitan governmental units. Complete lists of the 50 entities which reported making the largest amount of disbursements and the largest amount of disbursements by type of lobbying begins on page 23.

Lobbyist principals reported making expenditures of approximately \$47,000,000 during 2003 for lobbying purposes. This amount includes lobbyist salaries, advertising and public relations campaign, and all other lobbying disbursements made by the principal or lobbyist.

The Board summary also includes a list of:

- individuals or associations that contributed over \$500 to associations to be used for lobbying purposes (see page 7); and
- associations and the lobbyists that represented each association during the reporting periods covered, and the total amount of disbursements made (see page 29).

Information in this summary is based on reports filed by lobbyists registered with the Board and the 2003 Annual Report of Lobbyist Principal report, rounded to the nearest \$20,000. The information has not been verified or audited. Lobbyist reports are available for public inspection at the Board office.

# LOBBYING OVERVIEW

---

## What is lobbying

Lobbying is attempting to influence legislative or administrative action, or the action of a metropolitan governmental unit by communicating with or urging others to communicate with public or local officials in metropolitan governmental units. Any activity that directly supports this communication is considered a part of lobbying.

## Who is a lobbyist

For the purpose of this summary, "lobbyist" means:

1) An individual who is engaged for pay or other consideration of more than \$3,000 from all sources in a year for the purpose of attempting to influence legislative or administrative action or the official action of a metropolitan governmental unit by communicating with or urging others to communicate with public or local officials.

2) An individual who is not compensated for more than \$3,000 but spends more than \$250 in any year (not including travel expenses and membership dues) for the purpose of attempting to influence legislative or administrative action or the official action of a metropolitan governmental unit by communicating with or urging others to communicate with public or local officials.

3) A nonelected local official or an employee of a political subdivision who spends more than 50 hours in any month attempting to influence legislative or administrative action or the official action of a metropolitan governmental unit, other than the political subdivision employing the official or employee, by communicating with or urging others to communicate with public or local officials, including time spent monitoring any of the forenamed actions and related research, analysis, and compilation and dissemination of information relating to legislative, administrative, or metropolitan governmental unit policies in Minnesota.

An individual who merely communicates with a public official to obtain information or request an interpretation of a law, rule or agency action is not a "lobbyist".

An individual who volunteers personal time to work without pay on a lobbying campaign and does not spend more than \$250 on lobbying activities is not a lobbyist. An individual who provides administrative support to a lobbyist whose salary and expenses are reported, but who does not actually lobby, need not register as a lobbyist.

**About lobbyist registration**

A lobbyist must complete and file with the Campaign Finance and Public Disclosure Board a Lobbyist Registration Form on behalf of each association or individual that the lobbyist represents. Information disclosed on the Lobbyist Registration Form: name and address of the registrant; name of the association (including officers and directors) or individual represented; name and address of lobbyist principal; whether the lobbyist is a designated lobbyist, self-reporting lobbyist, reporting lobbyist, or authorizing another lobbyist to report; and general description of subjects on which registrant expects to lobby and the kind of action the lobbyist seeks to influence.

**Principal**

An individual or association that spends more than \$500 in the aggregate in any calendar year to engage a lobbyist, compensate a lobbyist, or authorize the expenditure of money by a lobbyist, or is not included in the definition above, and spends at least \$50,000 in any calendar year in efforts to influence legislative action, administrative action, or the official action of metropolitan governmental units.

Legislative action

- Action with regard to any bill, resolution, amendment, nomination, appointment, report, or any other matter which may be the subject of action by either house of the legislature, committee, subcommittee, or commission of the legislature. Metropolitan Governmental Unit action

- Activity to influence the official action of a "metropolitan governmental unit".
